

200mw 532nm green laser module

200mw 532nm green laser module

200mW High Quality 532nm green Laser Diode Module / Green beam ...

200mW High Quality 532nm green Laser Diode Module / Green beam / lab with driver A APT Lighting World (4882)

532nm Green Laser Systems

532nm DPSS green laser systems with output power from 100mW to 8000mW or more. Their compact design, high reliability and ease of use make them an ideal choice for corporate and university ...

532nm 200mW High-Power Green Laser Module 12V TTL

Input: 220V to 12V. 12V single green laser module. Made of high-quality high-power laser tube, high conversion efficiency.

532nm 200mw Green Dot Laser Module Laser Diode Industrial ...

1. Do not illuminate the laser. Do not look directly at the light hole. 2. Pay attention to the use environment, do not use it in the case of heavy dust or fog, to avoid the debris sticking to the surface ...

High Power 532nm 200mW Green Laser Line Generator

Employed by high power of 200mW and perfect thermal emitting system, 532nm green laser line generator gets superior thermal emitting performance and highly stable line alignment for image ...

532nm 200mW High Power Head Green Laser Module Wide Thick ...

Output Power: 100mw and 200mw
wavelength: 532nm beam dia: 13-14mm
fixed focus (not focusable) working
Voltage: 12V 1A attention: this is 220V

only, not working with 110V and other voltages.

High Power 200mW 532nm Green Laser Diode Module

Supported by AC/DC adapter, high power 532nm 200mW green laser diode module accepts wide range electric current within 100V to 240V, converting into 9V DC input power supply, and providing quite ...

200mW 532nm 12V High Power TTL Green Laser Module Beam ...

Description 200mW 532nm 12V High Power TTL Green Laser Module Beam Stage Light Show with Cooling

[Get Price](#)

Focusable 532nm 200mw Green Dot Adjustable Laser Diode Module ...

Focusable: Yes (i.e. adjusting the size of the light spot). Power: <200mW. 1 set 532nm 200mw laser module.

Wavelength: 532nm+-8nm. The power can be adjusted through an external ...
