

40-foot Off-Grid Solar Container for Power Distribution Stations

Overview

The container holds 20 solar panels, with capacity to integrate an additional 40-panel ground or roof array for a total of up to 60 panels (24,000W DC). 2 kWh lithium battery banks, and automatically orchestrates power flow between solar, battery, and. Discover our 20ft/40ft Solar Energy System Containers, offering high efficiency, customizable capacities, compact design, and advanced safety features for seamless energy solutions. Features High Efficiency Design - Achieve up to 90% efficiency with optimized energy utilization, maximizing output. Off-Grid Solar Containers transforms 20-foot shipping containers into complete, turnkey electricity generators—engineered for the places where conventional infrastructure can't reach, and built for those who refuse to compromise on reliability. Born from years of solar expertise at Danger Electric. It is based on a 10 - 40 foot shipping container. Efficient hydraulics help get the solar panels ready quickly. Our off-grid water system add on features an above ground septic tank, a 30 ft hose to connect.

40-foot Off-Grid Solar Container for Power Distribution Stations

Off-Grid Containers Spec Sheet

Our fully furnished containers are available in both 20 foot and 40 foot also outfitted with our WaterSecure system, providing you with an off-grid power solution that is both reliable and sustainable.
