

5MW Communication Power Supply Cabinet for Battery Swapping Stations

Overview

When natural disasters cut off power grids, when extreme weather threatens power supply safety, our communication backup power system with intelligent charge/discharge management and military-grade protection becomes the "second lifeline" for base station equipment. Light off - Empty slot 2. Red light flashing - Fault detected 4G network, main control, electric power protection system; IP54 protection class; Automatic fire. This product targets the three core pain points of low charging efficiency, frequent safety hazards, and insufficient energy replenishment facilities in the electric vehicle industry. Innovate the modular battery swap mode of "vehicle and electricity separation". Relying on intelligent battery. Swap and Charge in 5 seconds! Rapid Turnaround: Automated battery swapping in 5 seconds. Reliable Operation: Operates in a wide temperature range (-10°C to 50°C). Modular switching power supply, dynamic loop monitoring unit, fiber optic wiring unit, and battery backup unit can be integrated in one cabinet. To better ensure the safety of your goods, professional, environmentally friendly, convenient and efficient packaging services.

5MW Communication Power Supply Cabinet for Battery Swapping Station

15 Slots Battery Swapping Cabinet

Support remote software upgrade, remote grid power supply switch on and off, remote disable and enable specific slot.
