

5v wind turbine

5v wind turbine

2 Pcs DC 0.1V-5.5V 100-6000RPM Micro Vertical Wind Turbines, ...

Complete product: It needs yourself to assemble the wind turbine generator model kits, you can enjoy the fun of DIY. MINI size: Small and very good for demonstration, can be used as a wind power teaching ...

Mini Wind Turbine with Fans 5V

This is a vertical axis micro wind generator, it can generate electricity no matter which direction of the wind. The power generation model of this generator is DC power and the output

voltage range is 0.01 ...

Lithium battery parameters

Product capacity: 100Ah

Product size: 135*197*35mm

Product weight: 1.82kg

Product voltage: 3.2V

internal resistance: within 0.5

5V Wind Generators

A 5V wind generator is a compact energy solution designed to convert wind power into low-voltage electricity, typically suitable for charging small electronic devices, powering sensors, or supporting off ...
