

# 620wp solar panel size

## Overview

---

Measuring 2382 x 1134 x 35mm, this high-performance solar module is perfect for both residential and commercial applications. Equipped with advanced N-Type half-cell technology, it ensures superior power generation and long-term reliability. The company was recognized as the No. 1 in the industry over the past 15 years, and has a power output ranging from 590 to 620 W. It measures 2465#215;1134#215;30mm and has a weight of 34 kg. Low open-circuit voltage and high current design effectively reduces system BOS by 3%. Anti-Reflective (AR) Coated Glass for Enhanced Power Positive.
