

A microfilm paying tribute to the heroes of the power grid

Overview

I edited Scott Gaeta's message to Power Rangers fans during the kick-off of the Eternal Rangers Kickstarter campaign; showing you guys what goes through my mind when I hear this touching farewell to the game line. more. The Power Grid Microfilm First Prize winners prove there's a better way - but first, let's diagnose why conventional approaches crash harder than an overloaded transformer. Recent data from the 2024 International Energy Awareness Report reveals: This year's First Prize winner, "Wired Pulse". He photographed all British books printed before 1640 with a microfilm camera he invented (now in the Kodak museum at Harrow, England); positive film copies were sold to libraries wishing to have access to these rare, often unique, books. Correspondence, agendas of meetings, memoranda, reports and printed material relating to his business and University activities; and photographs. These unsung heroes often work in challenging and hazardous conditions. His donation from the Power Foundation established the Power Center for the Performing Arts.
