

Abu Dhabi island microgrids

Overview

This paper discusses the conceptual design of a smart microgrid test bed that can operate on 100% renewable energy for an offshore island in Abu Dhabi, UAE. The contribution in the design is uniqueness in its architecture and functionality. Our solar hybrid micro-grids provide reliable power for camps, islands, mines, industrial and oil & gas facilities, using our award-winning solar hybrid solutions. Available on a fully-financed (PPA) basis for periods from 2 to 20 years. From tiny Pacific Island micro-grids and rural solar home systems in Afghanistan and Morocco, to onshore wind in the Republic of. The Abu Dhabi resort island of Nurai has bolstered the solar component of its hybrid renewables microgrid – but having run out of space on land and on building rooftops, has opted to float the new PV array on the sea. These systems may be particularly suitable for sites requiring frequent backup power due to weak existing power infrastructure. This. Enerwhere designs, builds, and operates the world's most advanced hybrid microgrids. We aim to reduce our client's carbon emissions and fuel costs for generating power, while enhancing their reliability and electrical safety.
