

# Aixtron products

## Overview

---

Aixtron produces equipment, used for making a range of electronic and products containing, as well as and . In 2020, 73% of AIXTRON's came from clients in, with around 15% coming from and the remaining 12% from the United States. In 2022, 68% of Aixtron's revenue came from customers in Asia, 18% came from the Americas, and 14.

## Aixtron products

### AIXTRON Company Profile

Its products include compound semiconductors, metal organic chemical vapor deposition (MOCVD) systems, etc. The company also provides training, spare parts, and other services.
