

Aotai solar inverter Efficiency

Overview

51% ◆ Total current THD <3% ◆ Three-level SVPWM control technology, increase DC voltage utilization The aluminum shell is formed by stamping, ensuring excellent waterproof and corrosion resistance. ◆

Transformerless,max. It help user master PV power station running status at anytime and anywhere, realize remote data monitoring of PV power station, ensure convenient management and monitoring timeliness. System displays PV power. Established in 1993, AOTAI Electric is a leading manufacturer of inverter machines, including both solar inverters and inverter welding machines. As a typical technology-oriented company, its main products reflect development level of cutting-edge technology in this field in China. With strong R&D. DC breaker, easy to maintain and safe to use Integrated functions of combiner box& DC lightning protection, reduce system cost for users Efficient conversion Transformerless, max.

Aotai solar inverter Efficiency

Lithium Solar Generator: \$150

AOTAI ELECTRIC - Where Ideas Welds to Reality

This system includes inverter, communication network and upper computer, has advantages like high real-time, high reliability, simple wiring and remote monitoring and management.
