

# Armenia Wind Power Storage Power Station

## Overview

---

generates less than 1% of annually, as there were only four wind farms in 2023 and less than 10 MW is installed. According to a study sponsored by the (DOE) and the (USAID) in 2002-2003, the theoretical potential of Armenia is 4,900 MWe in four zones with a total area of 979 km . According to this research, the
