

Australian energy storage power production company

Overview

As an Australian company, we know how to build robust power solutions. Our products are tested and proven to endure extreme heat and deep cycling. For over 35 years, we've proudly designed, developed, and delivered premier energy storage solutions to exceed the needs. The NRN - National Renewable Network is a connected network of Solar and Battery Storage Systems, enabling households and businesses to switch to Renewable Energy without any upfront cost of finance, whilst also saving on their energy bill. NRN is a platform whom licenses the latest renewable. Energy Storage Pty Ltd is dedicated to providing low-cost, zero-emission energy storage solutions, emphasizing their innovative approach to thermal energy storage that does not rely on scarce minerals like lithium. Because when you go the distance, so do we. Octopus Australia has announced plans to develop what it claims is Australia's "largest planned battery energy storage system (BESS)" in New South Wales.
