

Austria s home energy storage policy

Overview

The draft EIWG regulates electricity storage in Austria, defining systems, grid access, costs, obligations, and unresolved legal questions for 2025. The new guidelines also strengthen the energy sector by increasing the investment subsidy for electrical storage systems. This subsidy rises from its previous cap of €100 (USD 108) to €150 per kilowatt-hour (kWh) of storage capacity. Additionally, the maximum subsidy for a single storage system has. ICLG - Renewable Energy Laws and Regulations - Austria Chapter covers common issues in renewable energy laws and regulations - including the renewable energy market, sale of renewable energy and financial incentives, consents and permits, and storage. Overview of the Renewable Energy Sector 2. Integrated Austrian Grid Infrastructure Plan (ÖNIP). Thank you for your Attention! Any Questions?

Source: Österreichs Energie, Wasserkraft und Klimawandel in Österreich (2024). From pv magazine Germany A second call for subsidy applications for solar and storage in Austria - held. In decarbonised electricity markets, electricity storage systems provide the flexibility urgently needed for grid operation and enhance the utilisation of volatile electricity generation from renewable sources.
