

Automatic glue machine for photovoltaic panels

Overview

The automatic glue machine for solar panel box mixes the two-component glue (glue A and glue B) in a certain proportion through air pressure control, and automatically applies or fills the part where the photovoltaic junction box and the wire are connected to achieve. The automatic glue machine for solar panel box mixes the two-component glue (glue A and glue B) in a certain proportion through air pressure control, and automatically applies or fills the part where the photovoltaic junction box and the wire are connected to achieve. Solar panel junction box automatic glue dispensing machine - Kapton Automation Equipment (Guangzhou) Co. The automatic glue machine for solar panel box, also known as photovoltaic junction box glue dispensing machine, photovoltaic junction box glue dispensing machine, etc. Acting as a high-performance Glue Frame Integrated Machine, it minimizes labor costs and material waste in the manufacturing of solar modules. Solar Panel Production Line, Process Assembly Line, making and manufacturing machines with best price, Achieving Carbon Neutrality Solar Module Frame Machine can install the aluminum frame and overflow glue. The servo motor and the potting head's wide coverage area ensure that the J-box applicator can adapt to various junction box. It is used for solar frame gluing automatically, meanwhile it can be upgraded to connect with auto framing and picking system. Frame Gluing Machine | Radiant Pv Solar 1. Applicable module size: 1640-2600*992-1500mm; 2.

Automatic glue machine for photovoltaic panels

Solar Panel Glue Dispensing Machines

Solar panel glue dispensing machines for efficient assembly. Durable, automated, and designed for high productivity. Perfect for solar panel manufacturing.
