

Bahrain Solar Cell Power System

Overview

EWA announced that the solar power plant will be located in the southern region of Bahrain, near Bilaj Al Jazayer, covering a total area of approximately 1. Kamal bin Ahmed Mohammed, President of the Electricity and Water Authority (EWA), has announced the commencement of work on Bahrain's first solar power plant for electricity generation, with a planned production capacity of up to 150 megawatts. This venture, set to be developed on a build-own-operate-transfer (BOOT) basis, marks a strategic move in the Kingdom's sustainable energy. y. Bahrain is a net energy exporter. The primary energy use in Bahrain was 110 TWh and 139 TWh per million persons in 2009, and 107 TW capacity was around 10 MWat that time. This initiative is not only a leap towards sustainable energy but also demonstrates EWA's. A significant step forward is the establishment of the net-metering system which is a part of the National Renewable Energy Action Plan.
