

Barbados new solar panels solar panels

Overview

The RSB (Renewable Solutions Barbados) Group has achieved a significant milestone by securing a license to operate a 50 MW solar photovoltaic project in Barbados. This development, set to be rolled out in two phases, marks a significant step forward in the island's renewable energy efforts. In 2020 I wrote a review about the Sun Exchange, the world's first peer-to-peer solar panel micro-leasing platform which powers solar projects primarily in South Africa. Now a very similar model is available in Barbados which allows Barbadians to own solar panels within an operating solar project. Equipped with cutting-edge equipment and a skilled team, Solar Watt Systems Inc. Our business is a new, no-hassle and seamless method to earn money from the sun, without physically having to install a solar panel on a roof.
