

Belgian Power Construction Energy Storage Procurement Project

Overview

Scheduled to begin construction in March 2026 and commissioned by September 2027, the project aims to deliver grid flexibility, integrate renewable energy, and enhance national grid stability. ENGIE and NHOA have confirmed a partnership to build a 320 MWh battery energy storage system (BESS) at Drogenbos, Brussels. The BESS contract to NHOA covers supply, commissioning, and long-term service. The France-headquartered firm announced the start of construction in the 4-hour duration project in Vilvoorde, Belgium, on 5 July. Elia awarded the contract for the 100 MW/400 MWh BESS near the village of Kallo, in the. Once completed, the four-hour battery energy storage project will operate under a 15-year contract with Elia, Belgium's electricity grid operator, and be located next to Engie's gas power plant in Vilvoorde. The project will be delivered by NHOA Energy to ENGIE under a supply contract.
