

Berlin easy to install solar curtain wall manufacturer

Overview

We are pioneers in integrating personalized photovoltaic glass into the very fabric of your curtain wall, marrying aesthetic elegance with unparalleled energy efficiency. Our experience spans more than 500 projects across 60 countries. Curtain walling refers to a non-structural cladding system made from fabricated aluminum, commonly used on the outer walls of tall multi-storey buildings. This lightweight material offers ease of installation and can be customized to be glazed, opaque, or equipped with infill panels. The combination of a fixed balustrade element with fully opening, insulated or non-insulated balcony glazing guarantees. Solbergh GmbH takes pride in producing a wide array of bespoke BIPV solar panels known for their efficiency, cost-effectiveness, and unique design variations. With our agile manufacturing capabilities, we offer unmatched flexibility and efficiency.
