

# Bess battery storage in china in egypt

 **LFP 48V 100Ah**

## Overview

---

The newly commissioned BESS is co-located with AMEA Power's 500 MW solar PV plant, which began operations in December 2024. The combined facility is expected to enhance the resilience of Egypt's national electricity grid and ensure reliable solar power delivery beyond daylight. Trina Storage, a subsidiary of global solar giant Trinasolar, announced on Tuesday the completion of a 300 MWh battery energy storage system (BESS) in Aswan Governorate, Egypt's first integrated solar and battery storage facility, according to a statement by the Chinese company shared with Ahram. The project will pioneer the use of a utility-scale battery energy storage system (BESS) in Egypt. When first unveiled in September 2024, the project was. Cairo, Egypt, J- IFC today announced an investment to support Egypt's first utility-scale battery energy storage system (BESS), deepening its partnership with AMEA Power, a leading renewable energy developer in Africa, the Middle East, and Central Asia, and the Government of Egypt to. Dubai, United Arab Emirates, 15 July 2025 - AMEA Power, one of the fastest-growing renewable energy companies in the region, is pleased to announce the successful commissioning of Egypt's first-ever utility-scaled Battery Energy Storage System (BESS). The 300 MWh facility, which is powered by solar energy, was delivered ahead of its scheduled.
