

Bess system for solar factory in Lisbon

Overview

Lisbon-based Endesa subsidiary Newcon40 Unipessoal Lda is developing the Sol de Évora Photovoltaic Solar Plant which would include a 240.44 MWh battery energy storage system (BESS). The projects listed for public feedback on the government's consultation portal include two solar-plus-storage sites. Two solar-plus-storage projects are among five planned renewable energy sites whose details have been published for public consultation on the Portuguese Environment Agency's. With electricity prices surging 20% since 2022 and solar curtailment risks rising, businesses need actionable battery storage quotations now. Here's a detailed breakdown of why a BESS system is essential for your solar project and how it helps you make the most of renewable. Aquila Clean Energy has secured two Battery Energy Storage System (BESS) projects in Portugal's latest auction (Investimento RP-C21-i08 - Flexibilidade da Rede e Armazenamento), marking a milestone in the company's renewable energy expansion.
