

Brand new solar container outdoor power field in Vilnius

Overview

Being built in the region of Svencionys, about 80 km (49.7 mi) north of the capital Vilnius, the company's second Lithuanian solar farm is expected to generate enough electricity to meet the annual demand of roughly 26,000 European homes. Vilnius district the municipal council finally approved the establishment and registration of the new public institution "Vilnius District Solar Park" in the Register of Legal Entities. But here's the kicker - its secret weapon is a 240MWh battery storage system that smooths out power fluctuations better than. What is Lithuania's first commercial battery storage facility?

Located near Vilnius, this project will be the country's first commercial battery storage facility and is expected to increase Lithuania's total storage capacity by approximately 50%. The system is scheduled to begin operations by the. Explore our comprehensive large-scale photovoltaic solutions including utility-scale power plants, custom folding solar containers, advanced inverters, and energy storage systems. With its focus on renewable energy adoption and sustainable infrastructure, the city hosts manufacturers specializing in battery storage systems, hybrid solutions, and grid-scale applications.

Brand new solar container outdoor power field in Vilnius

Nordic Solar to switch on 80-MWp Lithuanian PV park in 2025

Nordic Solar is working to expand its installed capacity in Lithuania with the construction of an 80-MWp photovoltaic (PV) park, its second one in the Baltic country.
