

Can I return the photovoltaic panels after they have just been installed

Features and applications:
PV energy storage system

Microinverters

Overview

The short answer is: It's complicated, but in certain situations, yes, you can return solar panels. Your ability to do so depends heavily on the terms of your contract, the condition of the panels, and applicable consumer protection laws. A solar panel system is not a typical purchase that can be boxed up and returned to a store for a simple refund. Reinstallation is the process of reinstalling solar panels after reroofing, remodeling or relocation. Plus when you combine these projects, some roofing expenses may qualify for the solar tax credit to help you maximize. Initially, I suggest you to check with installer to trouble shoot the basic steps like wiring issue, PLC, frequency, breaker trip and noise interference. Investing in solar panels is a significant decision, and like. In most of these situations, homeowners removed their solar panels due to roof damage, system failure, or the need for a roof replacement and then didn't reinstall them.
