

Can a simple container be used to store a generator

Overview

Many people recommend that you use a storage shed or small storage unit to store your generator safely. We advise not building a wooden shed or container as those tend to let in moisture and damage the unit. I'll walk you through containers, locations, shelf life, stabilizers, and the simple habits that prevent fires, fumes, and costly engine damage. First, let's gather a few simple supplies. A garage or shed is a good choice. Use a fan. Can we store generator inside our homes?

All these are important questions, especially for first time or new generator owners.
