

Can we build our own communication base station EMS

Overview

To solve these problems, I decided to build a portable base station that can be used for voice, packet and APRS on 2 meters and 70 cm. This course was adapted from the U. Fire Administration, "Safety and Health Considerations for the Design of Fire and Emergency Medical Services Stations" which is in the public domain. Fire Administration (USFA). What is an in-building emergency responder Communications Enhancement System (Erces)?

An In-Building Emergency Responder Communications Enhancement System (ERCES) is a wireless communications system used by first responder and emergency services personnel, such as police, fire, emergency medical. An EMS station needs to provide the comforts of home as well as the tools for work, from restful sleeping quarters to office space and equipment storage. But for modern organizations, a base station isn't a one-size-fits-all solution.
