

Cheap solar power with grid backup Price

Overview

Off-grid solar systems cost \$45,000-\$65,000 on average, more than double the cost of traditional grid-tied systems, with prices varying based on system size, type, and components like backup generators or wind turbines. Looking for a hassle-free complete solar power system?

Look no further than our pre-made solar kit packages. The EcoFlow OCEAN Pro Solar Battery System delivers scalable whole-home energy control with seamless solar integration, high-capacity backup, and AI-driven. Convert DC energy generated by solar panels into usable AC power. It sends power into the home to run appliances and turns back the meter with excess energy.
