

China's solar container communication station energy management system adopts chips

◆ **PRODUCT INFORMATION** ◆

The image shows a tall, grey and white cabinet labeled "Energy Storage System". It has a control panel on the front door with a digital display and buttons. The model number "DW-ESS-100P-200" is visible at the bottom of the cabinet.

-  **BATTERY CAPACITY**
50kWh~500kWh
-  **DC VOLTAGE RANGE**
400V~1000V
-  **DEGREE OF PROTECTION**
IP54
-  **OPERATING TEMPERATURE RANGE**
-10~50°C

Overview

Undocumented communication devices have been discovered inside solar inverters and batteries manufactured in China, according to two sources familiar with the matter. This has prompted US energy officials to re-assess the risks of emerging technologies produced in China. Power inverters are. U. A Reuters investigation, citing two individuals familiar with the matter, revealed. Officials are reportedly reassessing the risk posed by Chinese-made devices found in solar panels that are capable of damaging the energy infrastructure, destabilizing the power grid and triggering widespread blackouts.
