

Clip electric car charging

Overview

CLP has launched an Electric Vehicle Residential Time of Use Tariff. This EV tariff plan provides residential customers with flexible options for EV charging at residential parking lots to encourage smart charging. Charging vehicles during “Off-peak Period” can enjoy a discounted energy charge. Details. The AFDC's interactive Alternative Fueling Station Locator (below) displays public charging stations, or electric vehicle supply equipment (EVSE), installed throughout New York State. For inquiries, contact at 2678 1667 or ev-charging@clp. CLP Power Hong Kong Limited (CLP Power) fully supports the Scheme and has introduced a range of initiatives to encourage the installation of EV fast.

Clp electric car charging

Charging Options

Workplaces, multi-unit dwellings, and public facilities across New York may be eligible for incentives through the Charge Ready NY 2.0 Program to reduce the cost of installing EV charging stations.
