

Cyprus wind power energy storage requirements

Overview

Cyprus' Ministry of Energy, Commerce and Industry has launched a subsidy scheme for energy storage systems that can be added alongside existing renewable energy plants. Eligible renewable power plants should be remunerated either by feed-in tariffs (FiTs) or net billing systems. The scheme, funded through the 'THALIA 2021-2027' Cohesion Policy Programme and the Just. The government of Cyprus has published guidelines for a scheme to support the deployment of approximately 150MW/350MWh of energy storage. For instance, a 100 kW. Directive 2019/944 establishes common rules for the generation, transmission, distribution, energy storage and supply of electricity, together with consumer protection provisions, with a view to creating truly integrated competitive, consumer- centered, flexible, fair and transparent electricity.
