

Delivery period for IP54 outdoor cabinet fast charging photovoltaic system

Overview

For general standard household energy storage systems or small-capacity battery modules, the delivery period is 2 - 4 weeks. This energy storage cabinet is a PV energy storage. Whether it is the stable storage of solar power generationQ:What after-sales services does the company provide?

A:We provide comprehensive after-sales services, including energy storage system technical support, product maintenance and repair, and after-sales training services. Our professional. Outdoor cabinet ESS with 50-100kW power and 100-215kWh LFP battery for commercial energy storage. Supports 1000V PV, fast on/off-grid switching, IP54 protection, and intelligent EMS monitoring. There are two parts to your industrial and commercial electricity bill 1. High-Efficiency Conversion - 125kW PCS delivers 98. Designed for harsh environments and seamless integration, this IP54-rated solution features a 105KW bi-directional PCS, optional air- or liquid-cooled thermal.
