

Depreciation of solar power generation project

Overview

A detailed guide to solar tax depreciation, covering MACRS, Bonus Depreciation, and required basis adjustments for the Investment Tax Credit. The ability to accelerate the recovery of capital costs represents one of the most powerful financial incentives available to businesses investing in solar. Depreciation is one aspect of the tax code that facilitates greater investment in renewable energy and ultimately lower costs for consumers. If construction begins any time before 2020, the ITC equals 30 percent of the tax basis (generally the cost) of the qualifying property.
