

Distributed solar energy storage project in Honduras

Overview

The Honduran government and DanaSun Energy Honduras have signed an MoU to develop a 300 MW photovoltaic solar plant with 60 MW of storage in Choloma, Cortés. Sunpal Solar is expanding its presence in Latin America, introducing its innovative energy storage systems to Honduras. This strategic move aims to tackle the country's high electricity costs and heavy reliance on fossil fuels, building on the company's previous success in Jamaica while addressing. Discover how Honduras is advancing renewable energy integration through innovative storage solutions. This analysis ranks major projects and explores their impact on Central America's power grid stability. The initial phase will include 100 MW of solar capacity and 20 MW/80 MWh of storage, with operations expected to begin between March and. Last week (7 November) saw bids opened for a 75MW/300MWh BESS tender launched by the government of Honduras, in Central America.
