

# Dominica station-type energy storage system installation

## Overview

---

☐☐ Dominica Battery Spinning Reserve Project Smart Energy is proud to support the stabilization of Dominica's electricity grid with the successful installation of a 6MW/6MWh Lithium-ion Battery Energy Storage System (BESS) designed f. more. Dominica is taking a pragmatic step towards energy security and sustainable development, aligning with the global shift towards decarbonisation and infrastructure modernisation. The commissioning of a 6 MW / 6 MWh Battery Energy Storage System (BESS), installed at the DOMLEC facility in the Fond. From Wednesday 30th April to Sunday 4th May 2025, Dominica Electricity Services Ltd. This system aims to improve the integration of the 10MW Roseau Valley geothermal generation plant into the national grid, while also ensuring system. A recent installation in Dominica's capital demonstrates the power of proper design: The latest energy storage solutions incorporate three groundbreaking technologies: 1. AI-Optimized Charge Controllers Machine learning algorithms predict weather patterns, adjusting charge rates to maximize battery.
