

Dubai solar power grid connection

Overview

If your home is in Dubai, you'll deal with Shams Dubai, a solar initiative by DEWA (Dubai Electricity and Water Authority). The programme lets you connect your solar system to the grid through net metering. Here's how it works: You generate power during the day through your solar. Welcome to this page about DEWA's first smart initiative to connect solar energy to buildings, a part of the Distributed Renewable Resources Generation programme. This leading initiative supports the vision of HH Sheikh Mohammed bin Rashid Al Maktoum, Vice President and Prime Minister of the UAE. These permits are issued by DEWA (Dubai Electricity and Water Authority) to ensure that your solar connection is compatible with the grid and the local distribution company. The UAE has made substantial investments in renewable energy projects, especially in Abu Dhabi and Dubai. However, to ensure safety and compliance with the standards, discerning parties need to obtain solar permits and connections in Dubai.
