

El Salvador promotes solar water pumps

Overview

At the heart of this transformative project is a dedicated women's association that spearheaded the installation of solar panels and a pump system. Their new setup provides clean water to every home in the village, ensuring this basic necessity is readily available to all. On J, CoCoDA and its partner in El Salvador, CRC, celebrated the official inauguration of the new solar-powered water pumping system in Apolinario Serrano, Suchitoto. The village has launched a cutting-edge solar energy initiative aimed at tackling water scarcity and lowering electricity costs, a. All content is © 2023 Global Outreach Developments International, a 501c3 nonprofit organization. Community Works has implemented solar-powered irrigation and water wells in El Salvador, boosting agriculture and providing clean water to rural communities.
