## Overview

---

The government recently rolled out a new rule— Permen ESDM No. 10 of 2025—which lays out a roadmap for moving the country's electricity sector towards greener, more sustainable sources. The power industry consists of (i) generation, (ii) transmission, (iii) distribution, (iv) sale and (v) integrated activities. However, it is to be noted that Constitutional Court Decision No 111/PUU-XIII/2015, dated. Indonesia's oil imports have continued to increase, with oil imports reaching USD 36. [i] Despite producing approximately 600,000 barrels of crude oil per day, the country consumes 1. 6 million barrels per day, creating a significant supply gap that requires substantial imports. Energy Policy (the “NEP” or the “Regulation”). Replacing the previous framework set in 2014, the new Regulation extends the country's energy roadmap all the way to 2060, and offers clarity on how the government plans to balance gr donesia's commitment to achieving net zero emissions. 30 of 2007 on Energy (the Energy Law) and Law No. The implementation of these regulations and policies, however, lies in the hand of: (i) the new administration. Biruni Consulting offers comprehensive services for managing electrical product certification in Indonesia, helping international importers ensure their products meet the country's regulatory standards.
