

Emergency Lithium Battery Energy Storage Cabinet Dustproof Type

Overview

Designed to exceed IFC24 fire-containment standards, it enables secure storage of bulk, damaged, or prototype batteries without the need for a separate fire-rated room. Lightweight, mobile, and field-repairable, the cabinet combines long-term durability with sustainable. For the safe active and passive storage of lithium batteries, the asecos ION-LINE offers three different safety levels: CORE: Comprehensive fire protection with the proven asecos evacuation and alarm forwarding concept. PRO: Enhanced protection when handling lithium-ion batteries thanks to improved. Protect your facility and your team with Securall's purpose-built Battery Charging Cabinets—engineered for the safe storage and charging of lithium-ion, lead-acid, and other rechargeable batteries. Securall understands the critical risks associated with modern energy storage. Made with a proprietary 9-layer ChargeGuard™ system that helps minimize potential losses from fire, smoke, and explosions caused by Lithium batteries. These meticulously designed lithium-ion battery storage containers guarantee comprehensive safeguarding, including 90-minute fire resistance against external sources.
