

Enterprise off-solar container grid inverter

Overview

Delivering 10,000W of rated power output, this rugged pure sine wave hybrid inverter is capable of pairing with either GEL or LI batteries. Dual MPPTs provide 99% efficiency. Provides 120V and 220V output power. Off-Grid Solar Containers transforms 20-foot shipping containers into complete, turnkey electricity generators—engineered for the places where conventional infrastructure can't reach, and built for those who refuse to compromise on reliability. Born from years of solar expertise at Danger Electric. The Intech Energy Container is a fully autonomous power system developed by Intech to provide electricity in off-grid locations. Access to a parts supply chain means that systems can be built quickly, efficiently and without compromise in the UK. The Off Grid Container also. Absolutely - with modern off-grid systems, it's surprisingly straightforward.

Enterprise off-solar container grid inverter

Intech Energy Container

The Intech Energy Container -- or ECON -- is a modular, pre-configured off-grid power solution. It combines solar PV, battery storage, inverters, and energy management in a rugged container.
