

Factory price solar powerbox in Congo

Overview

How much do your solar PV systems cost?

Depending on the electric load profile, battery technology, site configuration and other parameters, a fully installed and functional solar PV system of IZUBA will cost between 2250\$/kW and 4250\$/kW (or 2.25\$/W), in the Democratic Republic of Congo. Imagine a newly commissioned solar module factory in Kinshasa, equipped with modern machinery and a trained workforce, ready to begin production. Suddenly, the entire facility goes dark. A power outage—a common occurrence in the city—brings the lamination process to an abrupt halt, ruining an. Our company, CongoSun is proud to be the exclusive distributor of Sunsynk solar products in the Democratic Republic of Congo (DR Congo). Powered by - The #1 Open Source eCommerce . IZUBA is a solar energy company established in the Democratic Republic of Congo and headquartered in Goma / North-Kivu, that specializes in EPCM (engineering, procurement, construction and management) services for grid-tied and off-grid / mini-grid solar PV projects.
