

Fiji organic solar panels

Overview

These panels are ideal for Fiji's climate and deliver long-term savings, clean energy, and peace of mind. We use Trina Solar panels — one of the most trusted solar brands in the world — for their outstanding efficiency, durability, and cutting-edge technology. We listen and learn from our customers at the same time as keeping right up to date with the latest training from our suppliers: Victron Energy, Hanwha Q-Cells and Narada Power - to name a few. All. Smart partnerships bring smart solar energy solutions to Fiji. Our innovative technologies make solar possible for households, businesses, property owners and entire communities. Anyone can generate and store reliable power. Do you know. Founded in 2008, EcoDirect is a value added distributor that helps Fijian installers, do-it-yourselfers (DIY), homeowners, businesses and commercial projects in Viti Levu, Vanua Levu, Taveuni, Kadavu and throughout the Fijian archipelago with project design, supply, logistics and technical support.
