

Fixed inverter price

Overview

24 per watt on a solar inverter, not including labor costs. Most solar panel contractors charge around \$50 to \$100 per hour. The size of your solar system (measured in kilowatts, or kW) directly impacts the size—and, therefore, the cost—of your inverter. String inverter systems cost less up front, but systems using microinverters last. Several factors influence the cost of solar power inverters, making it crucial to evaluate each component before making a purchase. Solar System and Inverter Retailer Prices are updated on Friday. But with prices ranging from \$100 to \$1,000+, how do you pick the right inverter without overspending?

In this guide, we'll break down home inverter prices, what affects them, and how to match your budget to your needs.
