

Free consultation on single-phase telecommunications energy storage cabinets for mines

Overview

Iceberg offers durable telecom cabinets for secure equipment housing. We have extensive manufacturing experience covering services such as battery enclosures, grid energy storage systems, server cabinets and other sheet metal enclosure OEM services. Combining a consultative approach and engaged support, we guide you through protecting your critical network infrastructure. For decades we've delivered buildings to remote energy and mining facilities worldwide. We work with international industry leaders like Exxon and Rio Tinto and regional US operations like Mill Creek Dolomite so we know what it takes to get the right building to the right extraction site.
