

# Hengzhou Photovoltaic Solar Power Generation

## Overview

---

It is committed to providing photovoltaic smart energy solutions for global industrial and commercial enterprise users, mainly engaged in intelligent photovoltaic power generation systems, intelligent charging System, development, financing, construction, operation and. It is committed to providing photovoltaic smart energy solutions for global industrial and commercial enterprise users, mainly engaged in intelligent photovoltaic power generation systems, intelligent charging System, development, financing, construction, operation and. Hangzhou Tengxi, as a leader in the new energy industry, has been committed to the research and application of solar energy technology. The company not only has advanced production technology and equipment, but also has a high-quality R&D team to ensure its leading position in solar energy product. Hangzhou, Zhejiang province, is developing a new type of power system by incorporating such clean energy resources as hydropower, wind, solar and storage, so as to raise its proportion of clean energy. Recently, the city facilitated the Shuangxikou Reservoir — the first medium-sized reservoir with. Recently, the first batch of solar panels of the new-type LED photovoltaic-grain integrated project, launched by the Guangxi branch of CHN Energy in Luancheng Town, Hengzhou City, began to generate power and was connected to the grid. The pilot zone of the photovoltaic-grain integrated project. Guangdong Hengzhou Energy Technology Co. Ltd, founded in 2005 and with 500MW production capacity, is dedicated to be a world-leading solar module and PV power generation solutions provider.

## Hengzhou Photovoltaic Solar Power Generation

---

### **Solar Panel Manufacturer, Solar System, Solar Battery Supplier**

Hangzhou Solar Photoelectricity Co. Ltd, founded in 2005 and with 500MW production capacity, is dedicated to be a world-leading solar module and PV power generation solutions provider.

### Hangzhou setting green transition example for country

In its transition to green electricity, Hangzhou is shifting its focus from coal-fired power dominance to wind, solar and hydropower, said Fu Yunxiao from

the local State Grid unit.
