Overview

Choose 3% for mixed-use spaces. It's the most forgiving when the room does a little of everything: daytime calls, homework, light TV, casual hosting. It trims reflections on screens, protects floors and furnishings from UV, and still keeps a reasonable sense of the outside. Blinds and window shades can attractively accent any room, but they also offer important features that may improve the quality of life in your home. Today's blinds and window shades can filter or completely block out light, provide complete privacy, protect from UV rays, insulate your home and help. Need solar shades with 3% openness to block 97% of the harmful UV rays from entering your living space?

Shop our Elite Solar Shades 3% Openness – Indoor or Outdoor for sun exposed windows, patios, pergolas, and decks. On the other hand, 5% solar shades allow 5% of light to pass through, offering slightly less glare reduction and UV protection compared to 3% shades. Privacy is a. Persilux Custom Size Cordless Solar Blinds Roller Window Shades for Home, 3% Openness UV Protection Fire Retardant View Through Light Filtering Roller Blinds for Windows, Kitchen, Living Room White How to choose a correct size to fit?

Example your window meas 23" width by 72" length.
