

# How much are 46 photovoltaic panels worth

## Overview

---

The average cost of solar panels ranges from \$17,350–\$38,000. This price range includes hardware, installation, and soft costs, but it does not account for additional components like solar batteries. Most homeowners spend between \$12,600 and \$33,376 to install a complete residential solar system in 2026, with the national average at \$19,873 before incentives. Clicking “Get Your Estimate” submits your data to All Star Pros, which will process your data in accordance with the All Star Pros Privacy Policy. Incentives also change from one state to another, shaping the final price dramatically. This 2026 guide breaks down the essentials so you can make a clear, confident decision. Solar panels offer the promise of lower-cost energy, but installing solar can also come with a hefty price tag. Fortunately, there are ways to reduce those upfront costs—and plenty of financing options to cover them, too. [How Quickly Will You Break Even?](#)

Is Solar Worth It?
