

# How much is the hs code for solar photovoltaic power generation system

## Overview

---

What is the HS code of the solar photovoltaic power generation system?

The HS code of a solar photovoltaic power generation system is 8541. This code pertains specifically to “photovoltaic cells, whether or not assembled in modules or made up into panels,” under the broader category of. Solar Power Generating System belong to HS heading 8502, but the exact 6-digit code depends on your product specifications. Let our AI tool analyze your product details and provide the precise HS code and tariff information. The Solar power generating system trade data from Seair paves the way for successful partnerships that generate. Combined with the latest international trade information in 2025 (such as HS code confirmation, Tax Rebates Adjustments, tariff developments, and quality-standard requirements), we have compiled a practical guide. There are 472 exporters of solar power system. Image (s) shown above is/are not part of the related US Customs Ruling.
