

How to connect two P wind power in UPS battery cabinet

Overview

This manual describes how to mechanically install the Eaton 9395 FI–UPM cabinet. Before connecting the battery cables from the battery cabinet to the host, measure the battery voltage with a multimeter, which should be 103.36V, and check if the positive and negative leads are correctly connected.

Compact Design: The cabinet features a small footprint, high power density design that may be placed next to, or apart. Page 2 Eaton reserves the right to change specifications without prior notice.
