

How to install photovoltaic panels on square steel

Overview

☐☐ In this video, we construct a strong and durable metal framework to support solar panels! ✨☐☐ From welding the metal beams to assembling the structure, we take you through the entire process step by step. Galvanized iron and advanced steel coatings help resist corrosion, especially in large-scale solar farms. Mechanical testing, modular design, and regular inspections keep your system reliable and cost-effective. This framework ensures stability, durability, and optimal positioning for maximum sunlight. Greentech Renewables has organized crucial insights to help solar installers understand the most cost-effective and safest options when working on metal roof solar installations.

Product Model
HJ-ESS-215A(100KW/215KWh)
HJ-ESS-115A(50KW 115KWh)

Dimensions
1600*1280*2200mm
1600*1200*2000mm

Rated Battery Capacity
215KWH/115KWH

Battery Cooling Method
Air Cooled/Liquid Cooled
