

Hybrid type of mobile energy storage outdoor cabinet for data centers

Commercial and Industrial ESS

Air Cooling / Liquid Cooling

- Budget Friendly Solution
- Renewable Energy Integration
- Modular Design for Flexible Expansion

Overview

The Hybrid Power and Battery Combo Cabinet integrates grid power, solar input, and battery energy storage into a single outdoor solution. Ideal for telecom base stations, edge data centers, and surveillance applications, the cabinet features a modular structure with IP55/IP65. A power system in an outdoor hybrid power supply cabinet integrates multiple energy sources to ensure a continuous and reliable energy supply. The Energy Storage System (ESS) provides energy buffering and backup support, allowing continuous operation even during. As a leading energy storage system supplier, Megarevo offers compact, integrated cabinet BESS designed for small C&I, hospitals, conferences, and weak power grid areas. One ESS cabinet consists of inverter modules, battery modules, cloud EMS system, fire suppression system, and air-conditioning system. Engineered for reliability and efficiency, it is ideal for outdoor installations such as EV charging stations, industrial parks, commercial.
