

India s solar energy storage cabinet system

Overview

A complete solar energy storage system with a battery setup, thoughtfully designed by experts for simple, reliable, and worry-free solar power at home. Brought to you by India's most trusted name in power and infrastructure. With over a decade of experience in renewable energy, Ornate Solar has developed a DC-coupled Battery Energy Storage. Built for Indian conditions, MySine is a smart energy storage system that draws power from your rooftop solar or the grid, so you stay powered through nights, outages, or even off-grid.

From ceiling fans and fridges at home to fuel dispensers and security systems at work, MySine delivers. Huijue Group's energy storage solutions (30 kWh to 30 MWh) cover cost management, backup power, and microgrids. Optimize your solar energy usage with Sungrow's state-of-the-art battery energy storage system and power your home. With higher capital spending and targeted incentives for domestic manufacturing, energy storage, and grid upgrades, the Budget lays the foundation for a stronger and more resilient renewable energy ecosystem, keeping solar and storage at the core of India's long-term power strategy.
