

Inner Mongolia Baiyinhua only installs photovoltaic panels

Overview

An aerial drone photo taken on Jshows a photovoltaic project in Kubuqi Desert in north China's Inner Mongolia Autonomous Region. Global Solar Power Tracker, a Global Energy Monitor project. Inner Mongolia Baiyinhua Power Plant Renewable Energy Substitution solar farm is an operating solar photovoltaic (PV) farm in Baiyinhua Town, West Ujimqin Banner, Xilingol League, Inner Mongolia, China. Read more about Solar capacity. Once defined by arid wastelands and ecological degradation, the Kubuqi and Ulan Buh deserts in Inner Mongolia are now home to vast expanses of solar panels — a transformation that's earned them a new moniker: “blue seas. ” This poetic nickname reflects a profound shift. The 3-million-kilowatt photovoltaic power station project in the Ordos coal mining subsidence area of Inner Mongolia, constructed by the CHN Energy Investment Group's Inner Mongolia Company, is part of China's second batch of large-scale wind power and photovoltaic bases. 72MW of high-efficiency string inverters to a landmark 1.
