

# Integrated home inverter battery

12V 10AH

## Overview

---

An inverter with inbuilt battery is an all-in-one device combining both the inverter and a rechargeable battery within a single unit. Batteries or battery packs without an integrated inverter must be paired with an external, third-party inverter to connect to your solar panel system and home. For anyone navigating the world of inverters, this innovation presents a game-changing alternative to traditional setups involving external. The built-in MPPT inverter with pure sine wave tech provides stable, grid-like power, which is a game-changer for sensitive electronics.
